2. Bill wanted the original to go to you, because he thought you would be interested, after which he wanted it returned. He indicated to me that he would prefer not to have a copy made of this report; however, because of the time element and that this report would be of interest to you and Don Chamberlain, we have had copies made but are labeling them "Internal Use Only."

3. FYI--There is nothing sensitive about the document, but for some reason best known to Bill he preferred not to have copies made.
